

Project Name	Software testing							
Execution by	Priyanka							
Executed Date	12 April 25							
Approved by	Shiva Sir							
Test Case ID	Test Case Type	Test Case Description	Pre-Requste	Steps to execute	Test Data	Expected Result	Actual Result	Status
TC_001	Functional	Verify that user is able to sign up with valid details (username, email,password)	OS-Window 10 Browser- Chrome Internet connectivity	1. Visit the website 2.Go to my account 3.Enter on sign up 4.fill the details. 5.enter register	Username - priyanka Last name- kushwaha email-priyankakushwaha314472@gmail.com Password- Priyanka\$312 phone no.-9899159206	User should be able to registered with valid details	User is abe to registered	Pass
TC_002	Functional	Verify that the password meets the required criteria (e.g., minimum length, uppercase, special characters.)	OS-Window 10 Browser- Chrome Internet connectivity	1. Visit the website 2.Go to my account 3.Enter on sign up 4.enter a valid password with minimum length, uppercase, special character 5.enter register	Username - priyanka lastname- kushwaha gmail- bp password - Priyana@12345	User should be able to registered with strong password	User is able to registered	Pass
TC_003	Functional	Verify that user receives a confirmation email after signing up	OS-Window 10 Browser- Chrome Internet connectivity	1. Visit the website 2.Go to my account 3.Enter on sign up 4.fill the details. 5.enter register 6.check the confirmation email after sign up	Username - rinku Last name- sharma email-priyankakushwaha314472@gmail.com Password- Priyanka\$312 phone no.-9899159206	User should receives a confirmation email after signing up	User does not receive any confirmation email.	Fail
TC_004	Functional	Verify that a user can log in after successfully signing up	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.click on my account. 3.click on login. 4.enter your valid details. 5.enter on continue	email- priyankakushwaha314472@gmail.com password- 123456789	User should be able to logging with valid details	User is able to login	Pass
TC_005	Functional	Verify that an error message appears if mandatory fields (username, email, password) are left blank	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.click on my account. 3.click on login. 4.I left some field blankss 5.enter on continue	Null	a error msg should be shown when you left some field blanks.	Error masage has shown under blank field.	Pass
TC_006	Functional	Verify that the user is redirected to the correct dashboard/home page after logging in	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.click on my account. 3.click on login. 4.enter valid details 5.enter on continue	email- priyankakushwaha314472@gmail.com password- 123456789	User should be redirected on the home page after login	User is not redirected on homepage after login	Fail
TC_007	Functional	Verify error message for login with invalid email and valid password	OS-Window 10 Browser- Chrome Internet connectivity	1.go.to on website. 2.go to on my account. 3.go to on login. 4.enter the invalid email and valid password. 5.Enter on login.	email- priyankakushwaha1234gmail.com password- 123456789	User should not be able to login with invalid credentials	User is not able to login with invalid credentials	Pass
TC_008	Functional	Verify error message for login with valid email and invalid password	OS-Window 10 Browser- Chrome Internet connectivity	1.go.to on website. 2.go to on my account. 3.go to on login. 4.enter the valid email and invalid password. 5.Enter on login.	email- priyankakushwaha314472@gmail.com password- pr@567890675	User should not be able to login with invalid credentials	User is not able to login with invalid credentials	Pass
TC_009	Functional	Verify error message for login with both invalid email and password	OS-Window 10 Browser- Chrome Internet connectivity	1.go.to on website. 2.go to on my account. 3.go to on login. 4.enter the invalid email and invalid password. 5.Enter on login.	email- priyankakushwaha314472.com password-54643234567	User should not be able to login with invalid credentials	User is not able to login with invalid credentials	Pass
TC_010	Functional	Verify login when the password field is left blank	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.go to on my account. 3.go to on login. 4.enter the valid email and left password field. 5.Enter on login.	priyankakushwaha9089@gmail.com	User should not be able to login without password	User is not able to login	Pass
TC_011	Functional	Verify that a logged-in user can successfully log out by clicking the logout button	OS-Window 10 Browser- Chrome Internet connectivity	1.go.to on website. 2.go to on my account. 3.enter the logout.	Null	User should be able to logout	User is able to logout	Pass
TC_012	Functional	Verify that after logging out, the user cannot access any pages without logging in again.	OS-Window 10 Browser- Chrome Internet connectivity	1.go.to on website. 2.go to on my account. 3.enter the logout. 4. check the webpages with login	Null	User should not be able to visit after logout	User is able to visit after logout	Fail
TC_013	Functional	Verify that the search results are relevant to the entered search keyword.	OS-Window 10 Browser- Chrome Internet connectivity	1. go to on website. 2. go to on search bar. 3. search any relevant items	plier	Search product should be able to display after search	Product is not displayed	Pass
TC_014	Functional	Verify that the search suggestions are displayed when the user types in the search bar	OS-Window 10 Browser- Chrome Internet connectivity	1. go to on website. 2. go to on search bar. 3. search any relevant items	m	Search suggestion should be display when type in the search bar	Search suggestion is not displayed	Fail
TC_015	Functional	Verify that an appropriate message (e.g., "No results found") is displayed when searching for a non-existent item.	OS-Window 10 Browser- Chrome Internet connectivity	1. go to on website. 2. go to on search bar. 3. search any non-existent items	bedsheet	"No result found"message should be displayed for non-existence items	"No product that matches search criteria "	Pass
TC_016	Functional	Verify search functionality when special characters are entered in the search bar	OS-Window 10 Browser- Chrome Internet connectivity	1. go to on website. 2. go to on search bar. 3. search any items with special character	bolt cutter\$	"No result found"message should be displayed for items	"No product that matches search criteria "	Pass
TC_017	Functional	Verify that the search works for case-insensitive keywords (e.g., searching for "Book" and "book" gives the same results).	OS-Window 10 Browser- Chrome Internet connectivity	1. go to on website. 2. go to on search bar. 3. search any items in both upper and lower case	hammer/ HAMMER	Searched Product should be displayed on page	products are displayed on page	Pass
TC_018	Functional	Verify that user is able to add the product in the cart	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.select a product. 3.add it into cart	Null	User should be able to add product in cart	User is able to add product in cart	Pass
TC_019	Functional	Verify that user is able to remove the product from the cart	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2. go to on add to cart option. 3.remove the product from cart	Null	User should be able to from the product from cart	User is able to remove product from cart	Pass
TC_020	Functional	Verify that user is able to add the product in wishlist	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.select a product. 3.add it into wishlist	Null	User should be able to add the product in wishlist	User is able to add in the wishlist	Pass
TC_021	Functional	Verify that user is able to remove the product from the wishlist	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.go to on wishlist option 3. remove product from wishlist	Null	User should be able to remove the product from wishlist	User should be able to remove from wishlist	Pass
TC_022	Functional	Verify the product categories are displayed correctly.	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.go to on search bar 3.search a product. 4.select the category	plier	Category should be displayed correctly.	category works correctly	Pass
TC_023	Functional	Verify that users can proceed to checkout with items in the cart.	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.select a product. 3.add to cart it. 4.enter on checkout process 5.Enter the details	address/Payment	User should be able to checkout.	User is able to checkout	Pass
TC_024	Functional	Verify that the user can view order history from their account	OS-Window 10 Browser- Chrome Internet connectivity	1.go.to on website. 2.go to on my account. 3.go to on order history	Null	user should be able to check order history	user is able to view order history	Fail
TC_025	Functional	Verify the email notification for order confirmation.	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.select a product. 3.add to cart it. 4.enter on checkout process 5.Enter the details	address/Payment	User should receive an order confirmation email	User is not able to order	Fail
TC_026	Functional	Verify that customer can track their order	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.go to on my account. 3. go on my order 4. track the order.	Null	User should be able to track the order	tracking order functionality is not available.	Fail
TC_027	Functional	Verify that customers can cancel their order	OS-Window 10 Browser- Chrome Internet connectivity	1.go to on website. 2.go to on my account. 3. go on my order 4. cancel the order.	Null	User should be able to cancel the order	Cancel order functionality is not available.	Fail
TC_028	Functional	Verify that all links and buttons are working properly	OS-Window 10 Browser- Chrome Internet connectivity	1. go to on website. 2. check all buttons and links	Null	all links and buttons should work properly	all links are working properly	Fail
TC_029	Functional	Verify that user is able to forget password	OS-Window 10 Browser- Chrome Internet connectivity	1. go to on website. 2. go to on login 3.forget password	Null	user should be able to forget password	button is not working	Fail
