

Project Name	Practice software testing	
Created by	Priyanka	
Creation Date	9 April 2025	
Approved by	Shiva Kumar sir	
Test Scenario ID	Module	Test scenario Description
TS_001	Registration	Verify that user is able to sign up with valid details (username, email,password)
TS_002		Verify that the password meets the required criteria (e.g., minimum length, uppercase, special characters,)
TS_003		Verify that user receives a confirmation email after signing up
TS_004		Verify that a user can log in after successfully signing up
TS_005		Verify error message when trying to sign up with an already registered email.
TS_006		Verify that an error message appears if mandatory fields (username, email, password) are left blank
TS_007	Login	Verify that a user can log in with valid credentials
TS_008		Verify that the user is redirected to the correct dashboard/home page after logging in
TS_009		Verify error message for login with invalid username and valid password
TS_010		Verify error message for login with valid username and invalid password
TS_011		Verify error message for login with both invalid username and password
TS_012		Verify login when the password field is left blank
TS_013	Logout	Verify that a logged-in user can successfully log out by clicking the logout button
TS_014		Verify that after logging out, the user cannot access any pages without logging in again.
TS_015	Search	Verify that a user can search for an item using valid keywords
TS_016		Verify that the search results are relevant to the entered search keyword.
TS_017		Verify that the user can filter search results based on available categories.
TS_018		Verify that the search suggestions are displayed when the user types in the search bar
TS_019		Verify that an appropriate message (e.g., "No results found") is displayed when searching for a non-existent item.
TS_020		Verify search functionality when special characters are entered in the search bar
TS_021	Add to Cart	Verify that the search works for case-insensitive keywords (e.g., searching for "Book" and "book" gives the same results).
TS_022		Verify that user is able to add the product in the cart
TS_023	Add to wishlist	Verify that user is able to remove the product from the cart
TS_024		Verify that user is able to add the product in wishlist
TS_025	Product browsing	Verify that user is able to remove the product from the wishlist
TS_026		Verify the product categories are displayed correctly.
TS_027	Checkout process	Verify that the product details page displays the correct product information.
TS_028	Order Management	Verify that users can proceed to checkout with items in the cart.
TS_029		Verify that the user can view order history from their account
TS_030		Verify the email notification for order confirmation.
TS_031		Verify that the user receives an order confirmation after a successful purchase.
TS_032		Verify that customer can track their order
TS_033		Verify that customers can cancel their order
